

Game rules

BOOGAME II

welcome to the second boogie game to be played exclusively at the boogeyman beater club..
Everyone has had a nightmare about a shadow or a scary creature and let this game be about that!

The idea behind this is that you all send in a drawing of the creature from your nightmares and everyone can play....

Send the drawing to info@theboogeymansclub.com and it will appear on the designated page and soon on a completely new website and of course the app!

The rules are simple and you can actually win something with this game, that sounds fun doesn't it?

you send the drawing of the creature that bothers you in your nightmares, and all the boogeypeople of our club will rate this drawing, but not only we, but also the people who see your drawing on the site rate this drawing...
And the first person to reach 100 5-star ratings has won and will receive a completely personalized digital ebook written by the supreme boogeyman himself.

But there are more prizes to be won because the second place will receive a paperback of a children's book of your own choice available on Amazon, sent to your home for free...

And the third place will have his or her drawing sent home in a postcard with kind regards from the entire boogeyman beater club!

Does this sound like a fun game? send your drawing of your boogeyman from your nightmares today or tomorrow to info@theboogeymansclub.com and keep an eye on your mailbox because you might be the winner!
